## San Mateo County COVID-19 Data Dashboard

Case data up to and including November 9, 2020

Total Cases

12,049

R-eff

1.03

Total Cases by Day

Cases by Sex

- R-eff is the average number of people an infected person will infect  
- Represents rate at which COVID-19 is spreading  
- Value less than 1 means decreasing spread  
- Value greater than 1 means increasing spread  
Source: CalCat ensemble for 10/31, accessed via CalCat on 11/4

Total Deaths

165

Deaths by Sex

Cases by Age Group

Cases by Race/Ethnicity

New Cases by Day

Deaths by Age Group

Deaths by Race/Ethnicity

Because of limited testing capacity, the number of cases detected through testing represents only a small portion of the total number of likely cases in the County. COVID-19 data are reported as timely, accurately, and completely as we have available. Data are updated as we receive information that is more complete and will change over time as we learn more. Cases are lab-confirmed COVID-19 cases reported to San Mateo County Public Health by providers, commercial laboratories, and academic laboratories, including reporting results through the California Reportable Disease Information Exchange. A lab-confirmed case is defined as detection of SARS-CoV-2 RNA in a clinical specimen using a molecular amplification detection test. Cases are counted by date the lab result was reported. Deaths reported in this dashboard include only San Mateo County residents; death data last updated November 9, 2020.

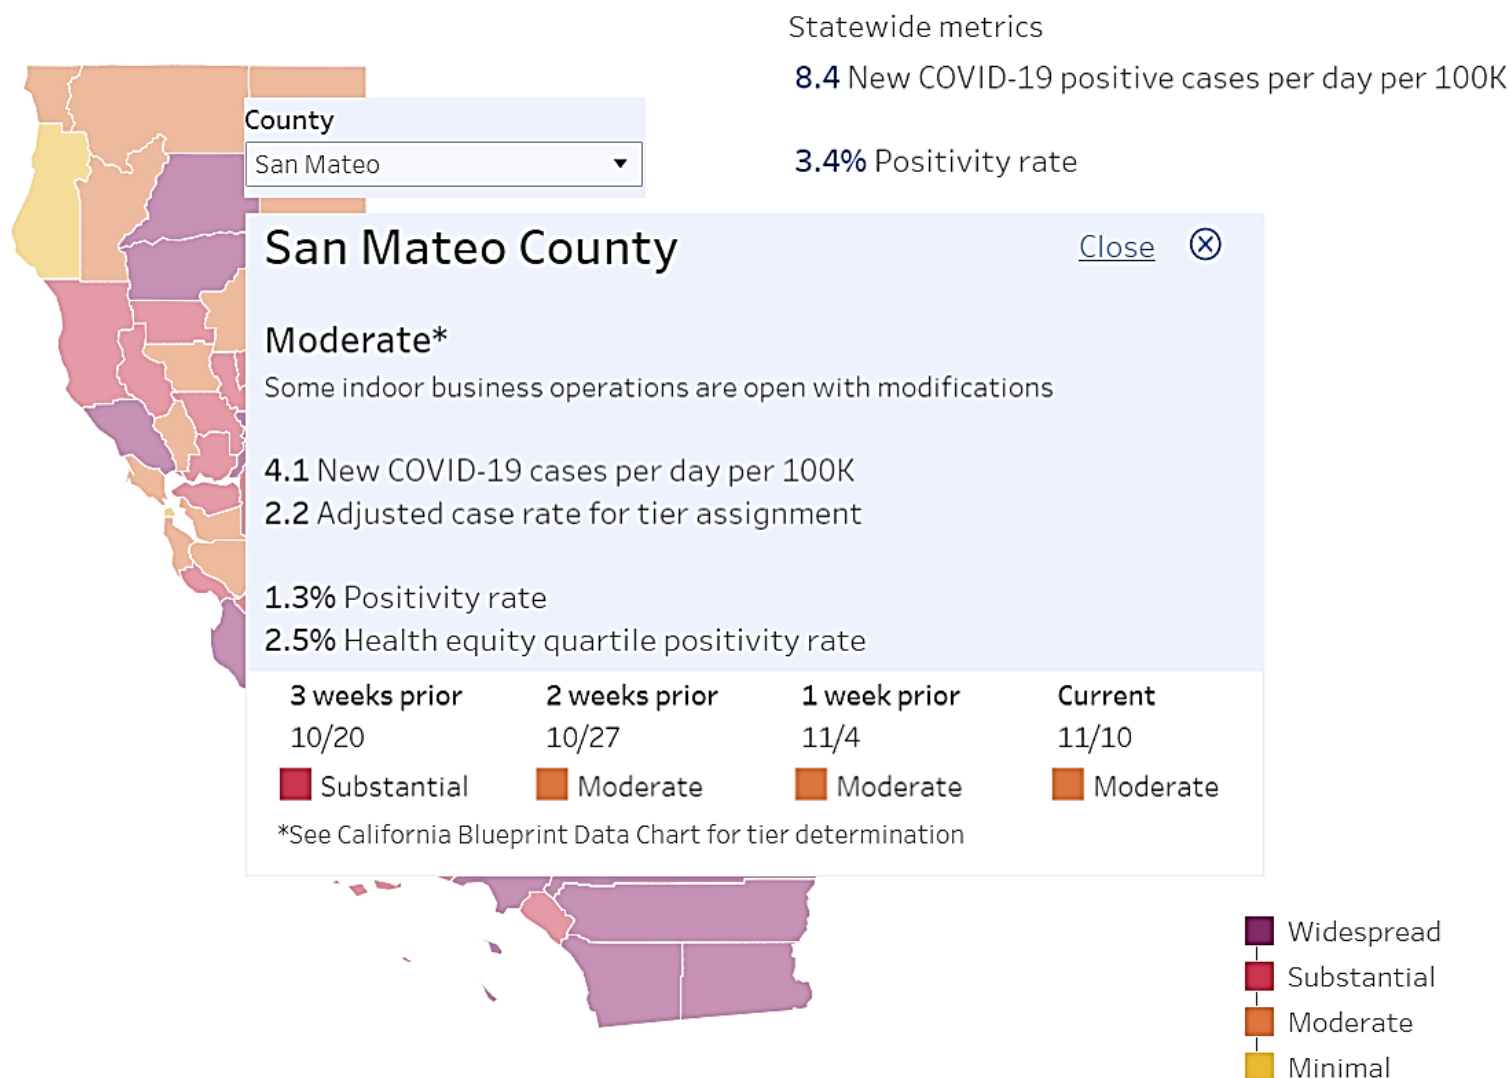

# BLUEPRINT FOR A SAFER ECONOMY

- ▲ Needs Encouragement with Eating/Drinking and Now Experiencing Weight Loss or Dehydration
- ▲ Used to Talk/Interact with Others and Experiencing Emotional Distress, Seldom Speaking, or Crying More Frequently

# Safer Holidays and Travel

▲ If You Gather in Person, Keep it Safer, Small, Short, and Stable.

- ✓ OUTSIDE IS SAFER: *Gather outside and follow safety guidelines*
- ✓ SMALL: *Limit gatherings to no more than 3 households*
- ✓ SHORT: *Limit gatherings to no more than 2 hours*
- ✓ STABLE: *Do not participate in multiple gatherings with many different households*

# Safer Holidays and Travel

## ▲ Avoid Travel

- Nonessential Travel is NOT Recommended
- Do NOT Travel if You Are Sick
- If You Travel, it is Strongly Recommended to Self-Quarantine Upon Return
- If You Travel, Plan Ahead
  - ❖ Is COVID-19 spreading where you are traveling?
  - ❖ Are you, your travel companions, or those you are visiting at higher risk for serious illness?
  - ❖ Will you be able to social distance from others during your trip?
  - ❖ Can you watch for symptoms and get tested?
